

## ASX RELEASE

29 June 2026

### HMC CAPITAL SECURES \$1.35bn PRIVATE CREDIT INSTITUTIONAL MANDATES

#### Key Highlights

- ~\$1.35bn funding across new institutional private credit mandates.
- ~A\$375m seed loans at financial close and deployment of balance expected in FY27.
- Supports growth in fee-earning AUM and recurring funds management earnings.

HMC Capital Limited (**ASX: HMC**) announces the establishment of new private credit mandates by two global institutional investors seeking exposure to the Australian Commercial Real Estate (**CRE**) lending market.

These mandates, previously disclosed as over A\$1bn of AUM in advanced documentation, are now established with A\$375m<sup>1</sup> of seed assets and include total funding capacity of up to A\$1.35bn.

On full deployment, the AUM of HMC's private credit platform is expected to increase to approximately \$3.3 billion<sup>2</sup>, providing ~\$1.0bn of dry powder for deployment in FY27.

The mandates introduce long-term institutional capital to the platform and expand available funding capacity, supporting continued growth in fee-earning AUM and recurring funds management earnings. The platform is now positioned to originate significantly larger loan opportunities for institutional investors and grow market share.

**HMC Capital CEO and Managing Director, David Di Pilla**, said: *"Introducing institutional capital is a major step in building a larger and more diversified private credit platform that can capitalise on Australia's growing CRE private credit market opportunity. Today's announcement reflects the significant investment we've made over the past two years to establish an institutional grade platform, with more than 70 investment professionals providing deep in-house capability and market leading governance."*

This announcement is approved for release by the HMC Capital Board.
